

每个人都有自由梦想，但我们不是天生向野而生  
Wilderness is not a luxury. It's in our veins.

Meet Hypershell, 集成前沿科技与人机工程的新一代外骨骼，灵活轻盈超强动力，赋予每个人打破边界的能力

For when everyday adventures lead to unexpected experiences,  
HyperShell has the power and technology that takes you there.

仿生伺服M-One输出超强扭矩足以抵消30kg重量，让每一步前所未有的轻盈，带你走出人海，去看山海

The M-One bionic motor can offset up to 30 kilos of weight.  
Feel light and agile like never before during hiking, running, and mountaineering.

Hyper模式下更能释放常规20倍的功率，在极速奔跑中也能持续输出超强助力，让你挑战更高的极限  
Gain extra horsepower in Hyper mode, even at your best pace.

Move fast; break records; make a history of your own.

驾驭hypershell超级简单，14个高精度传感器在动作瞬间捕捉运动意图，让hypshell如同身体延伸，省力省心

Don't drive it. Live in it.

HyperShell extends your body with 14 high-precision sensors that capture your intention and step in with zero delay.

航空镁铝合金骨架让HS轻盈坚固，配合IP54防水防尘，从容应对户外复杂多变的环境天气  
The full alloy frame and weatherproof design make HyperShell incredibly light and sturdy.

如同眼镜一样的可折叠设计，让HS轻便小巧，随身携带

HyperShell can be easily folded and stuffed into almost any backpack.

高密度电池带来25KM续航，给你一整天所需的充沛动力，可更换电池设计更能让多天连续作业不掉线

The high-density batteries will take you there and back again.

Comfortably extend 16 miles range for single-day use, and rest assured even in multi-day trips with its swappable design.

motionEngine让HS能自适应0-20km时速和60度陡坡，搭配10个可动关节，让几乎任何场景动作都能灵活过渡，无缝转场

Shift gears without hesitation.

Easily move through the day with a motion engine that adapts to 12mph pace and 60 degrees climb with 10 additional joints.

感受自在生活，探索广阔天地 -hypershell

Life's short. Step further, with HyperShell.
